Privacy Settings

The following link enables users to adjust their privacy and communication settings to control the amount of communication received from LinkedIn:

<https://www.linkedin.com/psettings/privacy>

Once you have clicked this link, there will be three main options at the top: “Account,” “Privacy” and “Communications.” When you select “Communications” you will be able to select what types of emails you wish to receive from LinkedIn. Under the “Emails” option you can select “Group updates” and select this option as ON to get group updates. When you click “Details” in the left hand column, you will be able to select which groups you would like to receive updates from. See the image below for more details.
