PSYC 5170 - Current Topics in Psychology (SLAC Professional Development) to be co-taught by Magnuson & Coppola

Mondays 11AM-12 PM Location tbd

This 1-credit seminar will address professional development and ethics topics relevant to academic and clinical research. The seminar will further address essential, but often overlooked, topics in PhD careers including: time management; project planning; budgets and money matters; teaching; grant writing; reviewing; networking; scientific reproducibility; project preregistration; p-hacking; etc. The seminar will also cover NIH requirements for clinical trials, a typical requirement for individuals funded via NRSA or related grants. A rotating cast of faculty and senior students will lead discussions.
